MERTON PORTER

This book is dedicated to a man who himself is dedicated.

Merton Porter was born March 13, 1912, in Green Camp, Ohio. He began a teaching career that has lasted 36 years. His career began with a three year stint at Waldo. His first appearance at Pleasant High School was in 1937. Mr. Porter remained at P.H.S. until 1953, when he accepted a position with the Prospect school system. Fortunately for Pleasant, Mr. Porter returned in 1957, and he has remained here since.

In 1961, Mr. Porter earned his Master of Arts degree from Miami University. He holds a permanent High School Certificate in the fields of chemistry, physics, and mathematics.

It is an honor to pay tribute to one who has become so much a part of Pleasant High School. Mr. Porter's own excellence inspires his students to achieve excellence in their own way. He gives much and asks nothing in return. Mr. Porter's untiring patience commands the respect of all his students. He overlooks our forgetfulness, our carelessness, and our inconsideration. In return for his unselfish gifts of friendship, knowledge, and inspiration, we dedicate the 1969 KEY to Mr. Merton Porter.

YEARBOOK STAFF WORKS HARD TO PRESENT 1969 KEY

We present to the students of Pleasant High School the 1969 KEY, a book full of the magic moments of school life at P.H.S. Open this book, and take time to remember the sights and sounds of life at Pleasant High School.

I'd like to express my thanks to the members of my staff who worked so hard to make this year's book better than ever. I extend my deepest thanks to Mr. Robert Dendinger for being patient with us and giving us his time, talent, and experience.

Your 1969 Editor-in-Chief,

Martha Lee

Seniors are worrying about graduating. Underclassmen are worrying about getting to be upperclassmen. Seniors can look at their diplomas and see long hours in class, homecoming dances, football games, the Southern majesty of "Gone with the Wind," jokes at lunch time, sleeping in home room, favorite teachers, and trips to the office. The class of 1969, Pleasant's 50th graduating class, now is part of the history of Pleasant High School.

This year more honors were achieved by Pleasant students than ever before. For the first time in the history of Pleasant, a student achieved the honor of becoming a National Merit Scholar. Another student became the first to represent Pleasant at the National Youth Conference on the Atom. The teen board selected more Teen-Agers of the Month than in previous years. Pleasant students showed their talents in the junior and senior plays and the talent show. The juniors presented an excellent prom, and the seniors ended their high school days at the commencement exercises.

RON SEITER became the third Pleasant Spartan to win a state championship.

Ron won the class A vaulting championship with a vault of 14 feet 3/4 inch.

One week later, at the Classic Meet at Bowling Green, Ron established a new Marion County record with a vault of 14 feet 6 inches. This height is the highest ever attained by a Marion athlete. Ron also owns the Pleasant field record of 13 feet 7 inches. Ron was coached by Mr. Dennis Shelton.

The people of Pleasant create memories of classroom fun and of favorite teachers. Be specific ... Get it? ... Oh crum! ... Santa Lives!... When do we get paid? ... May I have your attention please? ... The teachers' favorite expressions will remain as part of the students' memories of Pleasant High. The spirit of the faculty, administration, and students will remain within the halls of Pleasant High School through the years to come.

"It is my sincere hope that we, in some way, have helped you in Christian growth.

"I ask that your life be filled with concern for others and the understanding that self interest brings sorrow rather than happiness.

"Live your life in the manner you will someday hope your children to live.

"My best wishes go with you."

PRINCIPAL
MR. P. J. MIDLAM

"As you look at your yearbook, imagine yourself experiencing these great moments again, and ask yourself what you might have looked at more closely, what you might have done to heighten some experiences, and how you might behave if you had it to do all over again. There were opportunities in this past year that did shape or could have shaped your destiny. The spirit of Pleasant High School will always bring memories of the pleasures of this year."

The variety of organizations to which a Pleasant student may belong is unlimited. Students have the opportunity to show their leadership talents and ingenuity. The students learn through the experience of working together. The organizations require time and effort on the part of the students, and they in turn receive the satisfaction of a sense of belonging and of a job well-done.

JUNIOR

The future of P.H.S. shone bright and reassuring to anyone who traveled the halls of the elementary and junior high buildings. Well in evidence were the animated faces of the scholars, athletes, and leaders of the high school's coming classes. Minds broadened and developed toward maturity in the many classrooms. Coaches and physical education teachers strove to develop physical prowess. Band, chorus, and art classes brought out hidden talents and gave students an outlet for their feelings. In the minds of the students was the idea that soon they would be those charmed and charming people whom they admired so, the high school students.

People. That's what makes the school alive and worthwhile. The serious faces of the students during tests; the habitual grin of the practical joker; the stern scowl or indulgent smile of the harrassed teachers; the agonized or ecstatic faces during athletic events; the rapt faces during lunchtime gossip sessions - all these become part of the memories of tomorrow.

**WHAT WILL YOUR
EDUCATION DO?**

Just about anything you want it to do - within the limits of your acquired knowledge.

And there is no limit to the knowledge you can acquire - excepting within yourself.

Neither is there a limit to the accomplishment of cooperative use of the knowledge and education of many.

The cooperative use of the knowledge, education, and experience of the 2000 people of Marion Power Shovel developed and built this "daddy" of large draglines - 145 cubic yard capacity with a working weight of over seven thousand tons.

Your education can lead to such accomplishments, too - if you want it to.
